

## **Web Integrator Specialized in WordPress**

Nuroweb is currently looking for an autonomous person for a programming position.

The masculine will be used in this document for concision.

### **Work-from-home**

This is a virtual position. A home office where you will be able to work without interruption is therefore essential. You must be able to work independently and enjoy it.

Candidates may live anywhere in Canada.

### **Description**

The tasks to be fulfilled fall into two categories:

#### 1. Web Integrator

This task makes up about 40% of the workload.

Description:

- Integrating responsive HTML from Photoshop templates
- Integrating front-end elements to WordPress, CakePHP or another platform using the platform's template system
- Modifying responsive HTML integration on existing sites

## 2. WordPress Specialist

This task makes up about 60% of the workload.

Description:

- Web programming required to install and configure a WordPress site
- Programming WordPress custom post types and creating templates for custom post types according to the site-specific theme
- Creating WordPress sites from purchased themes
- Modifying existing Wordpress sites that were created with a purchased or customized theme

### **Training, Skills and Experience**

Required training, skills and experience:

- Good written and spoken French
- Good written and spoken English
- Attestation of collegial studies (ACS), diploma of collegial studies (DCS) or vocational school diploma in web integration, web programming, multimedia or the equivalent
- In-depth knowledge of WordPress, HTML5, CSS3, Bootstrap, Foundation and responsive integration in general
- Knowledge of various programming languages, particularly PHP and JavaScript
- Skill at recognizing complex problems and examining related information to design and assess options and then implement solutions
- Use of logic and reasoning to weigh the advantages and disadvantages of solutions, conclusions and approaches to problems

Training, skills and experience that will give the candidate an advantage:

- Knowledge of jQuery, parallax and mySQL
- Knowledge of WooCommerce and CakePHP
- Knowledge of application development according to the Scrum model

### **Working Conditions**

- Salary to be discussed
- For the first months, this is a 15-25h/week part time position that will become a full time 35 hr/week, possibility of up to 40 hr/week
- Overtime (over 40 hr) may be accumulated for holidays
- Flexible schedule: days/evenings/weekends, at your discretion. The work must be accomplished on deadline and without error.
- Use of your software and IT equipment
- Compensation of \$50/month (\$600/year) for use of your home office
- Nuroweb will pay any software or equipment required to perform your tasks and not currently in your possession
- Nuroweb will pay online or in-person training for your professional development
- Up to two weeks of paid vacation, starting in the summer of 2016, according to labour standards
- Three weeks of paid vacation starting after three years of service. Maximum of two consecutive weeks at a time
- Three floating holidays paid per year in addition to the statutory holidays
- Holidays from December 24 to January 2 inclusively; the days normally worked are paid
- Mileage is paid for work-related use of your personal vehicle

## **Application Procedure**

Please send us a cover letter, your CV, a link to your LinkedIn profile, your transcript and any other relevant documents.

Please send all your documents by email to [info@nuroweb.com](mailto:info@nuroweb.com).

Please do not call.
